Software Engineer with 3+ years of experience specializing in building high-performance, accessible web applications using React, TypeScript, and Next.js. Seeking to leverage expertise in modern front-end architecture and testing to build scalable, product-focused solutions.

📁 Work Experience

Software Engineer, *Collabrix*

Hydrabad, India
Dec 2024 - Feb 2025

- Replaced legacy Redux data-fetching logic with TanStack (React) Query to manage server state, eliminating over 400 lines of boilerplate code and implementing automatic background refetching for real-time data consistency.
- Led the migration of the application's styling system to Material UI, creating a custom theme to align with brand guidelines and improving development velocity by standardizing UI elements.
- Refactored the main dashboard using Material UI's responsive grid system, achieving 100% mobile and tablet compatibility and contributing to a 15% increase in mobile user engagement.

Software Engineer, *Atos*

Pune, India
Dec 2019 - Dec 2022

- Spearheaded the front-end implementation for 5+ client marketing websites, translating Figma designs into pixel-perfect, responsive UIs using React and Styled-Components, ensuring 100% compliance with design specifications.
- Improved Core Web Vitals across key client sites by an average of 20% by implementing image optimization (WebP), code-splitting, and lazy loading, directly contributing to enhanced SEO rankings and user experience.
- Reduced production bugs by 30% by implementing a comprehensive testing strategy with Jest and React Testing Library, covering critical user flows with over 85% unit and integration test coverage.
- Developed and maintained RESTful APIs for client projects, collaborating with back-end teams to define data structures and ensure seamless data flow between the client and server.

🧩 Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Frameworks & Libraries:** React, Next.js, Node.js, Express.js
- **State Management:** Redux Toolkit, Zustand, TanStack Query, Context API
- **Testing:** Jest, React Testing Library (RTL)
- **Styling & UI:** Material UI, Tailwind CSS, Styled-Components, shadcn
- **Tools & Platforms:** Git, GitHub, Docker, Vercel, Firebase, Postman, Webpack, Vite

Projects

Saga Bill Pro, Co-Founder & Full-Stack Developer

- **Tech Stack:** React 18, TypeScript, Redux Toolkit, Tailwind CSS, Vite, Recharts, React Hook Form, Zod, Axios,
- Designed and developed a web-based salon management system for inventory tracking, invoice generation, and business operations.

Key Achievements:

- Built inventory management with real-time stock tracking, minimum stock alerts, and stock adjustments.
- Implemented sales/invoicing with automated PDF generation, customer management, and transaction history.
- Created dashboard with interactive charts for revenue, bookings, and business insights.
- Implemented role-based access control and multi-branch support

Invoice Generator

- **Tech Stack:** React, TypeScript, Firebase (Auth, Firestore), Material UI, Framer Motion
- Built a serverless invoice generation tool with secure Google Authentication via Firebase, enabling users to create and manage professional invoices.
- Utilized Firebase Firestore for real-time database updates and persistence, ensuring data integrity and instant synchronization across sessions.

Fanbook, Social Media Application

- **Tech Stack:** React, Material UI, Context API, Styled-Components
- Designed and built a responsive social media dashboard with a theming system supporting both light and dark modes, managed via React's Context API.
- Implemented a dynamic, grid-based layout for the content feed that adapts seamlessly to various screen sizes.

Expense Tracker

Created a comprehensive budget management tool with **React** and local storage, enabling efficient tracking, visualization, and deletion of budgets and expenses.

Education

Bachelor in Engineering. (CSE), Dr. D.Y Patil College of Engineering & Technology, Kolhapur

Percentage: 72%

2015 – 2019

Kolhapur

Higher Secondary Certificate (HSC), D.Y. Patil College Junior College

Percentage: 67%

2013 – 2015

Kolhapur

Indian Certificate of Secondary Education (ICSE),

Seventh Day Adventist Higher Secondary School

Percentage: 68%

2012 – 2013
